Achieve an excellent balance of high initial adhesion and good holding power to a wide variety of materials with 3M™ Double Coated Tape 9527. Our tape is well suited for bonding together a wide variety of similar and dissimilar materials such as rubbers, metals, wood, glass, paints and plastics.

Bond a wide variety of similar and dissimilar materials such as rubbers, metals, wood, glass, paints and plastics with 3M™ Double Coated Tape 9527. Our tape achieves an excellent balance of high initial adhesion and good holding power to a wide variety of materials. Some typical applications include: splicing of papers, foils, films and fabrics. Use to mount rubber or photopolymer printing plates, miscellaneous joining, holding and mounting uses where high adhesion and holding power are required.
